Momen Khan

Ui/Ux Designer at Codieshub
Bhakkar District

Summary

I'm Momen Khan, a multidisciplinary designer based in Pakistan City,
Bhakkar.
As an avid believer in the power of human-centered design, I am
fascinated by user interaction and people-based problem-solving.

I approach design empathetically and focus on understanding the
latent needs and emotions of the people who I am designing for,
aiming to create clear, impactful solutions to enrich their lives.

I have worked on projects in UI/UX, web design, branding and
identity, motion graphics, signage and wayfinding, print design, and
Wix website designing/development.
I enjoy collaboration, analog and digital experimentation, and
learning about new tools and approaches to continue enhancing my
design process.

Outside of design, my interests include contemporary fashion,
traveling, researching new technologies, and music/podcasts.
